

Your Safety Comes First

Your Safety Comes First

We are committed to doing all we can to keep our customers and staff safe and healthy at all times, and even more so today, as we face the COVID-19 pandemic together. We have taken measures to limit exposure and reduce further spread of the virus while maintaining a safe and healthy environment for our customers and staff.

Enhanced Safety Procedures Increased Cleaning Measures

- Cleaning of common areas and contact surfaces within the sales and service areas. Incorporating regular employee sanitary practices before any customer interaction. (ex. Washing hands)
- Readily available hand sanitizers in customer areas (lounge, showroom, service, and washrooms).
- Established an enhanced process in the care for customers' vehicles when in service and prior to delivery.
- Optimized operational "Social Distancing" and adhering to the government mandate in limiting the number of people in the dealership. We are adopting a combination of measures aimed at reducing congestion in specific areas of the dealership at any one time.
- We are asking staff who feel unwell to remain home and not come into work.
- Sending staff home who show any signs of illness.

We continue to make your health and safety a top priority and follow best practices recommended by the Government of Canada and the Government of Manitoba.
